ST. JOHN THE BAPTIST PARISH
STATE OF LOUISIANA

ORDINANCE 26-70

Mrs. Hotard introduced the following ordinance.
Mr. _____ and Mr._____ seconded the following ordinance.

THE ST. JOHN THE BAPTIST PARISH COUNCIL HEREBY ORDAINS:

An ordinance to approve and adopt the annual operating budgets for the St. John the Baptist Parish General Fund, Special Revenue Funds, Enterprise Funds, Capital Projects Funds, and Debit Service Funds for the fiscal year beginning January 1, 2027, and ending December 31, 2027.

Unless specified, this ordinance becomes effective five (5) days after publication in the Official Journal.

BE IT FURTHER ORDAINED, that the St. John the Baptist Parish Council is acting as the governing authority for said parish.

The above ordinance having been submitted to a vote; the vote thereon was as follows:

YEAS:

NAYS: **ABSENT:** **ABSTAINING:**

The result of the vote on the ordinance was___**YEAS**, ___**NAYS**, ___**ABSENT**, __ **ABSTAINING**, and this ordinance was declared adopted on the __ day of _____, 2026.

ST. JOHN THE BAPTIST PARISH

From the Office of Parish President Jaclyn Hotard

October 27, 2026

Honorable Robert Arcuri
St. John the Baptist Council Chairperson
1811 West Airline Highway
LaPlace, LA 70068

Dear Mr. Arcuri:

I present to you the St. John the Baptist Parish annual budgets for the General, Special Revenue, Capital Projects, Debt Service, Custodial, and Enterprise Funds for the year beginning January 1, 2027. This budget and message are submitted as prescribed under Article V of the St. John the Baptist Parish Home Rule Charter.

The preparation of the annual operating budgets is the responsibility of the Parish President's Office. The Parish Finance Department provides the historical data for all individual funds to project annual revenues, expenditures and needed improvements. The 2027 fund budgets have been prepared based on past operating histories, estimated revenues, estimated cash flows, and projected needs. Each individual fund budget presentation contains actual audited data for the previous fiscal year, as well as the current 2026 budget, as amended to date.

This 2027 Budget Presentation contains a vast amount of financial and historical information involving all budgets for St. John the Baptist Parish. This Presentation is designed to provide our citizens, taxpayers, customers, investors, and creditors a general overview of the Parish's finances and to demonstrate the Parish's accountability for the money it receives. The Parish has six different fund types which are: General, Special Revenue, Capital Projects, Debt Service, Custodial, and Enterprise funds.

In keeping with my administration's budgetary philosophy, as well as the Parish's current cash flow needs and estimated future economic conditions, a conservative approach was used to compile the 2027 fiscal year budget. Costs associated with the Parish have been closely scrutinized and aggressively minimized, especially considering the uncertainties surrounding the current economy. We are proud to say that the Parish has maintained their AA- bond rating as well as a clean audit opinion.

Please note, as in years past, certain funds reflect a deficit balance in operations, excluding interfund transfers, which result in a drawdown of available funds (Fund Balance). Some of the deficits are related to customary one-time expenditures for capital improvements, while others will require a long-term solution to address historical shortfalls.

1811 West Airline Highway | LaPlace, Louisiana 70068 | 985-652-9569 | Fax 985-652-4131 | WWW.SJBPARISH.COM

One recommendation would be the re-dedication of certain millages to help some of the funds to meet their regular operating needs. We are incorporating a $3.00 per garbage can increase beginning January 1, 2027, to help offset the deficit in the Solid Waste fund. Included in the 2027 budget, as required by the water sector grant requirements, is a 15% increase in sewer rates (the average increase will be $3.90) and a 3% increase in water rates (the average increase will be $.74). The rates will go into effect beginning January 1, 2027.

Despite the many challenges faced, the Parish continued to work on multiple projects, the following projects were completed during 2026:

- Completed construction of the Regala Park drainage and parking improvements.
- Completed construction of the Regala Park flag football field synthetic turf and lighting project.
- Completed Council on Aging HVAC improvements.
- Completed over $7 million of small and large drainage improvement projects throughout the Parish.
- Completed approximately $1.4 million of asphalt improvements during this year's annual Asphalt Road Improvement Project.
- Completed the Animal Shelter building.
- Completed the Utilities Generator Replacement project.
- Anticipated completion, by year's end, of the West Bank Community Center.
- Anticipated completion, by year's end, of the Highway 61 Streetscape drainage project.

The following projects began or continued during 2026 and are still underway and will continue into 2027 and beyond:

- Continuing improvements to the water intake, treatment, and distribution systems throughout the Parish.
- Continuation of the Hurricane Ida HMGP Elevation program.
- Acquisition of land for the new Water Plant Project which will allow the Parish to treat water more effectively and efficiently.
- Installing LED lighting on the LaPlace stretch of the interstate, which will reduce costs significantly.

- Continuing canal cleaning, dredging, and spraying throughout the Parish to remove sediments and debris which allows for better flow and drainage.
- Continuing to work with residents on the Manchac Greenway Project, a resident-led beautification effort to develop a bike trail around Lake Pontchartrain.
- Continuing with the construction on the West Shore Lake Pontchartrain Levee. The $2 billion hurricane protection levee, fully funded by Federal dollars, will help protect St. John Parish from future storm water flooding issues.
- Continuing the Maurepas Diversion Project, which will construct a gated structure on the Mississippi River and five miles of conveyance channel near Hope Canal, to reconnect the river to the swamp. This $330 million-dollar project will improve the health and longevity of this ecosystem.
- Continuing the expansion of the Reserve Oxidation Pond.
- Continuation of the massive wastewater consolidation plan which will ensure the Parish operates its wastewater facilities at a very efficient rate.
- Design and construction of the $16.2 million Homewood Pump Station.
- Design and construction of St. John sidewalks: LA 628 – Main Street to Emily C. Watkins.

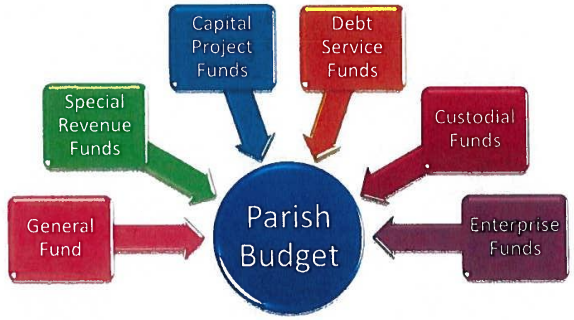

The past years have been challenging for the Parish with unforeseen events. In 2020 the state-wide lock-down due to the world-wide Pandemic began, followed by high river causing months-long delays in construction projects, multiple hurricanes and tropical storms, other weather events and the devastation left in Hurricane Ida's wake, and most recently Hurricane Francine, setting our Hurricane Ida recovery efforts back a bit. These events caused delays in construction projects, increased costs to maintain facilities and programs, and decreased revenues, all effects of which are still felt today and will continue into the next fiscal year. All these factors have been considered while composing the 2027 fiscal year's budget. In closing, I would like to state, that while my first seven years as Parish President were extremely challenging, I have never met more dedicated employees, council members, residents, and business owners than those located within our Parish. I once again extend my thanks to my administrative staff and all St. John the Baptist Parish employees for their continued hard work and dedication to make this budget presentation possible. Therefore, Chairperson Arcuri, I hereby submit this message and the 2027 budget and am excited for the growth and recovery these figures represent. If there are any questions, concerns, or suggestions, please do not hesitate to contact me.

Respectfully Submitted,

Jaclyn Hotard
Parish President

cc: Honorable St. John the Baptist Parish Council Members
Peter Montz, CAO / CAA
Tracy Shields, Comptroller

Overview of Fund Types

General Fund	The General Fund (GF) is the general operating fund of the Parish, it accounts for all financial resources not required to be accounted for in other funds. The GF receives revenue from a variety of sources, including ad valorem taxes, licenses and permits, fees and other charges, in addition to cash transfers from other funds. There are 16 departments that operate within the general fund.
Special Revenue Funds	Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. On average, 37% of the revenues collected are derived from this fund; with 40% being the average of all expenditures. Most of the services provided by the Parish fall within the Special Revenue Funds. There are 24 such funds.
Capital Project Funds	Capital Projects Funds are used to account for the acquisition and construction of major capital facilities. On average, 19% of the revenues collected are derived from this fund; with 38% being the average of all expenditures.
Debt Service Funds	Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. On average, 3% of the revenues collected are derived from this fund; with 4% being the average of all expenditures. Currently there are 3 such funds.
Custodial Funds	Custodial funds are used to account for assets held on behalf of outside parties. The Parish does not own these resources and cannot use them to finance its own operations the Parish acts solely as a custodian for these funds. There are 2 such funds.
Enterprise Funds	Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private businesses. On average, 36% of the revenues collected are derived from this fund, with 12% being the average of all expenditures. The intent of the Parish is that the costs of providing services to the general public on a continuing basis be financed or recovered primarily through user charges. There are 6 such funds.

OVERVIEW OF THE BUDGET PROCESS

Budget Purpose
The purpose of the Budget is to provide fiscal guidance for the upcoming year and to determine how the limited estimated revenues will be allocated by fund and by department to best serve the Parish. Additionally, the budget is used monthly to compare actual revenues and expenditures to the adopted budget to be better able to react to changing economic conditions. The responsibility for the administration of the Budget rests with the Parish President, through the Chief Financial Officer or designee.

Budgetary Structure
The operating budget includes various funds that are budgeted and accounted for separately. They are categorized as Governmental, Proprietary, and Fiduciary Funds and are broken down into the following subcategories:

Governmental Funds are used to account for most tax-supported activities. The types of governmental funds in the parish are:

- General Fund
- Special Revenue Funds
- Capital Project Funds
- Debt Service Funds

Proprietary Funds are used to account for the Parish's business-type activities and consist of:

- Enterprise Funds

Fiduciary Funds are used to hold and manage assets for outside parties:

- Custodial Funds

Budgetary Accounting
Formal budgetary accounting is employed as a management control device and budgets are legally adopted for the General, Special Revenue and Enterprise Funds. Budgets for the General and Special Revenue Funds are adopted on the modified accrual basis of accounting. Enterprise Fund budgets are adopted on the accrual basis of accounting. Other funds are administratively budgeted for management use only. All such budgets are consistent with the accounting methodologies used in the Parish's audited financial statements.

The Parish budget is prepared in accordance with Louisiana law. During the year, the Parish revises its budget to take into consideration significant changes in revenues or expenditures. Louisiana Revised Statute 39:1311 requires a budget amendment if either expected revenues are less or anticipated expenditures more than budgetary goals by 5% or more, each individual fund budget must balance; the expenses may not exceed the revenues. Usage of the beginning fund balance may be considered when balancing the budget, but the preferred method is to have each year's expenses not to exceed that year's revenues.

Each individual fund budget must consider long-range planning. Annually, each funds' budget will be looked at a minimum of five (5) years in advance to determine the long-range effects and feasibility of anticipated revenues, and especially expenditures. Such long-range planning

includes budgeting for the ongoing financial commitments for lease payments, continual repairs and maintenance and replacement or upgrade costs.

Revenue diversification is practiced at the Parish level. The Parish's revenues are derived from many different revenue sources, such as grants, service fees, taxes, etc. While a particular fund's revenue stream may only be comprised of one revenue source (sales taxes for example), revenues from other funds may be allocated to assist each fund with meeting their operating needs. Each individual fund budget must keep all other revenue policies firmly in mind when developing their annual budgets. Fees and charges for services are reviewed annually to determine that the rates are high enough to cover the expenditures incurred for providing such services. Single time or unpredictable revenues shall not be relied upon to cover ongoing expenditures, and all such revenues should only be used in projected budgets when their receipt is most reasonably anticipated to be certain, and the amount can be conservatively estimated.

Debt capacity, issuance, and management are practiced at the Parish level. Additionally, the maintenance of and tracking of the fund balance and other reserve accounts is performed at the Parish level. This allows for reserve funds to protect the Parish against unexpected revenue shortfalls or un-predicted one-time expenditures. Each fund's budget must compare the actual vs budget numbers monthly in order to timely identify any problems that need to be rectified.

The level of budgetary control is at the fund/department level and expenditures may not exceed budgeted appropriations. Appropriations which are not expended lapse at year's end. Management may not transfer amounts between line items of an approved budget without approval of the Parish Council.

The preparation of the annual operating budget is the responsibility of the Parish President's Office. While the Parish Finance Department provides the historical data for all individual funds, the department directors are responsible for projecting annual expenditures and needed improvements. The fund budgets are prepared utilizing financial trend analysis as further explained below. Once the budgets have been completed, they are submitted to the Parish President who reviews each fund with its department director. Finally, the budgets are presented to the Parish Council for final approval.

Budgeting Methodology

When developing the annual budget, the Chief Financial Officer (CFO) or designee begins by reviewing the historical data for each fund. Each fund's revenues and expenditures are looked at over the past five (5) years, with more weight (or importance) being put upon the figures for the past two (2) and the current actual year-to-date numbers. For example, when developing the 2027 budget, the actual audited numbers for the years 2021 through 2025 and the year-to-date actual figures, plus any significant changes, for the current 2026 year are analyzed. Trend analysis is utilized to determine how much one account has changed over the multi-year period. This is calculated by taking one year (2025) and subtracting it by the earlier year (2024) and dividing that difference by the earlier year's amount (2024). These percentages are then analyzed, and any unusual or unanticipated changes are explained. The annual percentage of change provides the starting point for the current year's budget (2026). For example, if a revenue is steadily increasing through the years, the average percentage of increase would provide the starting point. The average percentage would be multiplied against the prior year's (2025) budget to determine the

starting dollar value for the revenue line item. Other factors are then looked at and their effect on this beginning point is considered.

Such questions considered include:

- How does the change over the past two (2) actual years (2025 - 2024) and the actual year-to-date for the current year (2026) compared to the five (5) year trend? If more growth occurred during this time, or if the growth seems to be tapering off, utilizing an average percentage of just this shorter time frame would then be used as it is perceived to be more indicative of current events.

- Have there been any changes in individual line items that need to be considered?
  (i.e.: lease payments changed, broken equipment to replace, insurance costs increasing, grant monies or other changes in federal funding received)

- Is any debt expiring or is any new debt expected to be incurred?

- What is the economic condition of the Parish and the surrounding areas and how does it affect future estimates?
  (i.e.: increased businesses or an increase in populace result in more tax revenues)

- What are the goals, both short and long term, of this fund and do the estimated revenues and expenditures reflect moving toward our achievement of those goals?

- What is the overall trend of the fund balance?
  (i.e.: shortfalls need to be determined to be short or long-term, and any long-term shortages need to be addressed)

Based upon these answers, the starting budget dollar is adjusted up or down accordingly. Then this preliminary budget is sent to the various department heads in September. The Department Heads meet individually with the Chief Financial Officer (CFO) or designee to discuss the preliminary budget and any changes they deem necessary. Once all modifications have been made, the budget is submitted to the Parish President for review and approval. After the Parish President's approval, the budget is then presented to the Council for their comments and approval. The Budget presented to the Council includes a budget message and this entire budget presentation.

Note that the capital budgets are the Parish's plan for capital improvement, including commitments to be incurred during the budget year from funds subject to appropriations by the Parish Council and other federal and state sources. Projects included in the budget are considered long-term and funding may not be entirely secured, and time frames for expenditures often differ drastically from what was projected.

Budget Calendar

Article V of the St. John the Baptist Parish Home Rule Charter addresses the preparation of the annual operating budget. The Parish's budget shall begin on the first day of January and end on the last day of December. At least sixty (60) days before the beginning of the fiscal year, the

President shall submit a line-item operating budget and a capital budget in accordance with accepted accounting principles in a format established by Parish Council.

The submitted budget shall be balanced. A balanced budget is one in which total estimated expenditures do not exceed total estimated revenues, including the estimated deficit or surplus in the fund balance from the previous year. The Parish Council shall publish the proposed budget in the official journal two (2) weeks prior to the meeting at which it is to be adopted.

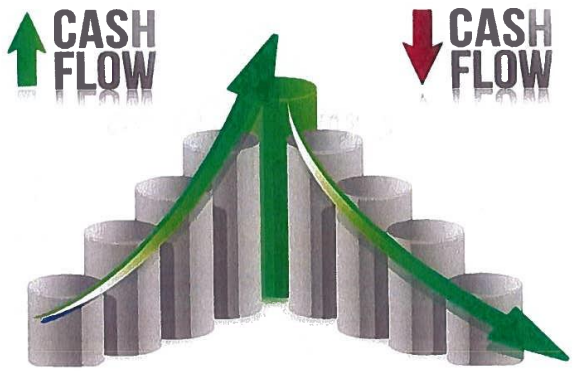

Note that whether it is the original budget or a budget amendment, the Parish follows the guidelines as laid out in the Louisiana Revised Statutes. The budget/amendments must be published in the official journal, *The Advocate*, stating that they are available for public inspections, the date and time of the public hearing, and adopt the budget at a public hearing.

The budget calendar for preparation of the annual budget is as follows:

Budget Calendar	
August	Departmental requests for budget submissions
September	Deadline for receiving departmental budgets
August – September	Budget drafts reviewed by Parish President and Administrative Office
October 27	Parish President's Budget submitted to Council
October – November	Council Budget Hearings and Publish in the public paper
Prior to Year End*	Council Approval of Budget
January 1	Effective date of Budget
January – March	Update Budget Presentation to reflect any changes made by the Council prior to adoption
March 31	Deadline for submission of Budget Presentation to GFOA for consideration in the Budget Awards Program

*The Council may approve the budget at any meeting prior to year-end (December 31st). If the Council does not approve the budget by year end, then the budget submitted by the Parish President shall take effect.
